If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can be uploaded and downloaded for free. The cost of that data transfer is covered by your internet service or the data plan on your phone. You can give this download link to your friends by mail or instant messenger. Our service is completely free for everyone. Unfortunately, we can't make that part free. You decide who you want to share your files with. So try our free and simple filehosting service now. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You don't need any special software installed to be able to downloadyour files. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. There are no restrictions on the number of times afile can be downloaded. filehosting provides an easy possibility for you to send large files to your friends. We have no file size limit. Why pay storage fees for afile that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps.Simply upload your file and share the link. Files can be downloaded from any computer from our high speed servers. No account or credit card is required toget started. You can upload any type of file (movies, music, documents, images, zip files and more). File is free to use with no gotchas and no hidden fees. It isalso allowed to link to the download page from websites and communities. Just upload the file you want to share with your friends and we send you a downloadlink to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or ph
