Unfortunately, we can't make that part free. Just upload the file you want to share with your friends and we send you a download link to your file. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. The cost of that data transfer is covered by your internet service or the data plan on your phone. Simply upload your file and share the link. You can give this download link to your friends by mail or instant messenger. Using file, you can circumvent those limits without paying to upgrade your team chat service. It is also allowed to link to the download page from websites and communities. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. If only we could, we surely would! On the other hand, usingfile can actually save you money. We have no file size limit. Our service is completely free for everyone. You decide who you want to share your files with. You can upload any type of file (movies, music, documents, images, zip files and more). There are no restrictions on the number of times a file can bedownloaded. Any file in any format can be uploaded and downloaded for free. You don't need any special software installed to be able to download your files. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. File is free to use with no gotchas and no hidden fees. No account or credit card is required to getstarted. Keep your files private, or send your download links only to friends or family. Files transferred the old-fashioned way tend to pile up and be forgottenabout, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. filehosting provides an easy possibility for you to send large files to your friends. So try our free and simple filehosting service now. Files can bedownl
