Reinforcement stitches are sewn by sewing 3 to 5 stitches on top of each other. Pressing the button twice sews one stitch. Use keys b through i, described below, to display various items and select the settings. Simple descriptions on threading the upper thread, installing the bobbin, winding the bobbin and replacing the presser foot can be displayed. In addition, after you have finished reading this manual, store it where it can quickly be accessed for future reference. In addition, the needle can be threaded with a simple operation. page 24 Twelve of the most often used utility stitches can quickly be selected with the stitch keys. page 66 Always unplug the machine from the electrical outlet immediately after using and before cleaning. Close attention is necessary when the machine is used by or near children. Use only accessories recommended by the manufacturer as contained in this manual. Return the machine to the nearest authorized dealer or service center for examination, repair, electrical or mechanical adjustment. Keep ventilation openings of the machine and foot control free from the accumulation of lint, dust, and loose cloth. To unplug, grasp the plug, not the cord. Special care is required around the machine needle. 11. Always use the proper needle plate. The wrong plate can cause the needle to break. It may deflect the needle causing it to break.

With alternative plugs an approved fuse must be fitted in the plug. In the event of replacing the plug fuse, use a fuse approved by ASTA to BS 1362, i.e. carrying the mark, rating as marked on plug. To fully enjoy all the features, we suggest that you study the manual before using the machine. Do not touch the hand wheel, thread takeup lever, needle, or other moving parts. Using other power sources may result in fire, electric shock, or damage to the machine. Fire or electric shock may result. Electric shock may result. Always grasp the plug to remove it from the outlet. Pulling on the cord may damage the cord, or lead to fire or electric shock. Do not place heavy objects on the cord. Do not subject the cord to heat. These things may damage the cord and cause fire or electric shock. If the cord or plug is damaged, take the machine to your authorized dealer for repairs before continuing use. Otherwise a fire may result. When restarting the sewing machine, follow the necessary procedure to correctly operate the machine. To reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet. Do not modify the plug in any way. To return to the previous screen, press. For details on each attribute, refer to the corresponding reference page. However, the machine can be set to instead leave the needle raised when sewing is stopped. Use of any other bobbin may result in injuries or damage to the machine. If bobbins from older models are used, the machine will not operate correctly.

Use only the enclosed bobbin or bobbins of the same type part code SA156, SFB XA5539151. Be sure to thread the machine as indicated. Use the spool cap with a diameter that is slightly larger than the diameter of the spool. The medium-sized spool cap is already on the spool pin when the sewing machine is purchased. If the spool cap is too small for the spool being used, the thread may catch on the slit in the spool or the needle may break. If the bobbin is wound without cutting the thread using the cutter built into the slit in the bobbin winder seat, the thread may become tangled in the bobbin or the needle may bend or break when the bobbin thread starts to run out. If bobbins from older models are used, the machine will not operate correctly. Use only the enclosed bobbin or

bobbins of the same type part code SA156, SFB XA5539151. Be sure to thread the machine as indicated. If the upper threading is not correct, the thread may become tangled or the needle may bend or break. Be sure to thread the machine as indicated. Check that the mark on the balance wheel is facing up as shown in the illustration below. If the balance wheel is not in this position, be sure to press the needle position button to raise the needle before using the needle threader. Use the spool cap with a diameter that is slightly larger than the diameter of the spool. The mediumsized spool cap is already on the spool pin when the sewing machine is purchased. If the spool cap is too small for the spool being used, the thread may catch on the slit in the spool or the needle may break. Since the shutter is closed when the presser foot is lowered, the machine cannot be threaded. Be sure to raise the presser foot so that the shutter is open in order to thread the machine. Be sure to press the needle position button to raise the needle before using the needle threader. Both upper threads should have the same thickness and quality. Be sure to use the twin needle, the extra spool pin and the spool cap.

Use of any other needle may bend the needle or damage the machine. Bent needles can easily break, possibly resulting in injuries. If the needle threader is used with the twin needle, the sewing machine may be damaged. Failure to observe these precautions is extremely dangerous, for example, if the needle breaks and fragments are dispersed. Be sure to read and carefully follow the instructions below. Use of any other needle may bend the needle or damage the machine. Bent needles can easily break, possibly resulting in injuries. Refer to the following table when choosing the thread and needle appropriate for the fabric that you wish to sew. In addition, the stitching may be uneven or puckered or there may be skipped stitches. Do not use Use the screwdriver and a needle that has been determined to Use of any other presser foot may result in injuries or damage to the machine. Check that the correct presser foot is attached before starting to sew. If the wrong presser foot is installed, turn off the sewing machine, attach the correct presser foot, and then select the desired stitch again. Turn the dial to the right smaller number to decrease the pressure. Turn the dial to the left larger number to increase the pressure. This is useful when sewing fabrics that are hard to feed such as vinyl and leather and when sewing fabrics that easily slip such as velvets or when quilting. If the needle hits the presser foot, the needle may bend or break. Please use the box above to search for any other information. To reduce the risk of electric shock Be sure to assure correct installation. Do not store anything on the needle while sewing. For a longer service life 1. For repair or adjustment In the event a malfunction occurs or adjustment is required, first follow the troubleshooting table in. What else do I have to do.
